Short Course Description

What will you gain?

You will gain **entrepreneurial skills**, which can benefit your research funding, employability or get inspired in creating a spin-out.

You will have a polished 5 min pitch deck that will clearly describe the impact of your research!
You will learn how to take a complex research concept, like your PhD, and formulate it into clear value propositions that can be used in your grant applications for potential investors and other stakeholders.

HOW?

- By having access to five (5) Asynchronous Modules with small assignments on the EIT Food education learning platform CANVAS (10 h of offline work).
- By receiving 1:1 mentoring over a 6 to 8 weeks period, from GFVP partners that have vast experience in supporting PhDs acquiring entrepreneurial skills.

- By participating in a series of synchronous workshops so that you do not feel alone in your journey.

Learning Outcomes

- Evaluate your entrepreneurial skills
- Communication skills of how to create value & impact society with your research
- Acquire the Skills and Mindset to modify your pitches to different occasions
- Enable an in depth understanding of the nine building blocks of the Business Model Canvas Template

Course Topics

The course is designed to have three entrepreneurial phases as building blocks: AWARENESS, COMPETENCE, and REALISATION, and the tools and concepts in modules are categorized by phase.

In the AWARENESS section, you will find tools and concepts to inspire and increase your knowledge about the entrepreneurial tools and mindset and how they can assist you in generating industry collaborations, impact creation, research funding, and alternative career opportunities.

In the COMPETENCE section, you will find tools and concepts for hands-on training sessions and entrepreneurial competence-building, and in the REALISATION section, you will find tools and concepts to help you move from idea to creating value from your research.
